POPULATION ESTIMATES  
BY SEX AND AGE GROUP

Following the compilation of the population data from the Census of June 1, 1956, by sex and five-year age groups, for Canada and the provinces, the estimates previously calculated for that date were compared with the census count for each sex and age group. The discrepancies between these two sets of figures were then used in the revision of the annual intercensal estimates by sex and age group.

This bulletin contains the revised estimates for Canada and the provinces for the years 1952-1955. Bulletin No. 40 "Population Estimates (age and sex), 1921-1952" was published in 1953 and contains the revised figures for the years 1922-1950. The figures for 1952 in Bulletin 40 are now replaced by the revised 1952 figures in the present bulletin.

For the first time this data on sex and five-year age groups has been prepared and is shown for the Yukon and Northwest Territories for intercensal years. The data shown for Canada is the total of the ten provinces and two territories.

ESTIMATIONS DE LA POPULATION  
SELON LE SEXE ET PAR GROUPES D'ÂGE

A la suite de la totalisation des chiffres sur la population recueillis au Recensement du 1<sup>er</sup> juin 1956, selon le sexe et par groupes d'âge de cinq ans, pour le Canada et les provinces, les estimations déjà établies pour le 1<sup>er</sup> juin 1956 ont été comparées pour chaque sexe, pour chaque groupe d'âge avec ceux du recensement. Les écarts constatés entre les deux séries de chiffres ont ensuite servi à réviser les estimations intercensales annuelles selon le sexe et par groupes d'âge.

Le présent bulletin renferme les estimations révisées de la population du Canada et des provinces pour les années 1952-1955. Le bulletin n<sup>o</sup> 40, "Estimations de la population (âge et sexe), 1921-1952", publié en 1953, renferme les chiffres révisés des années 1922-1950. Les chiffres de 1952 dans le bulletin n<sup>o</sup> 40 sont maintenant remplacés par les chiffres révisés de 1952 dans le présent bulletin.

C'est la première fois que les estimations de la population, selon le sexe et par groupes d'âge de cinq ans, sont établies et publiées pour le Yukon et les Territoires du Nord-Ouest à l'égard des années intercensales. Les chiffres du Canada constituent le total des chiffres des dix provinces et des deux territoires.

ESTIMATED POPULATION BY SEX AND AGE GROUP, FOR CANADA AND PROVINCES, 1952.

POPULATION ESTIMATIVE PAR SEXE ET PAR GROUPES D'ÂGE, CANADA ET PROVINCES, 1952.
